Ana Lugo
0-5 Statewide Trainer

707.529.9909

ana@first5association.org

Join us for a 2-hour interactive training! You will gain tools and resources to train your census teams and trusted messengers on why the 2020 census matters to our communities.

We will introduce strategies and concepts to help you better understand how to approach your census campaign through culturally responsive engagement. We will outline key messaging from our 0-5 outreach census campaign, identify different ways to engage in conversation with families, and highlight how we can connect our work to long term engagement strategies.
